## FAQs

### **Q: Do I have to ask the bank to issue an invoice for a VAT taxable service?**

A: The Customer must contact their branch and request an invoice for the desired service/product. Due to the VAT regime applicable to banks, the issue request must be made before the charge is made. It is not possible to request invoices for charges already incurred, but only for later charges. Once made, the invoice issue request applies to all later charges until revocation by the customer.

### **Q: Can I have clarifications about the Group VAT number and the related notes shown in the invoice?**

A: UBI Banca S.p.A. and its subsidiaries involved follow the VAT group regime and set up the UBI VAT Group with the Group VAT number 04334690163.

This VAT number must be used by the companies belonging to the UBI VAT Group to replace their suspended individual VAT number. The individual company Tax Code remains unchanged and must be included in the invoice track.
